WELCOME TO CRYPTO ELEVATION!

This eBook is provided to show you exactly what you need to be a successful member. We have included information, rules and guidelines that'll lead you to earn high passive income. At Crypto Elevation, we are empowering our community by offering a platform for members, like you, to fund their dreams. We are creating an unstoppable movement towards the future!

INTRODUCTION

In the past year, as more and more consumers and companies paid attention, cryptocurrencies have transitioned from a relatively fringe movement into the mainstream.

Cryptocurrency is a radical departure from the way modern society has thought about and used money for financial transactions. Cryptocurrency circumvents governments and financial institutions to give the people power to buy and sell without a middle man (ie: a store or bank).

At Crypto Elevation, we value society's well being and believe that this innovation and technology can be a means to implement good in the world. We act as a segue between you and cryptocurrency. Offering the opportunity to be educated on the future of money AND have it in your pocket too!

We want you to take control of your financial status by having passive income. With our Matrix business model, you're guaranteed to earn a set amount of Ethereum (ETH) by following simple steps discussed in this ebook. We created a platform for you to manage your account, access your funds and see what causes have motivated people to raise money. Go to CryptoElevation.com to sign up or login.

**INNOVATION & TECHNOLOGY CAN
BE A MEANS TO IMPLEMENT
GOOD IN THE WORLD**

OUR CAUSE

Everyone has something they are working towards; a purpose, a reason. Crowdfunding for your cause has become simple and achievable with Crypto Elevation. Become part of a community of people all around the world that have joined this platform to create wealth and help others create wealth.

We are partners with CHOICE Humanitarian, a charity with a mission to end Extreme Poverty. A percentage (15%) of the corporate position profits are donated to this cause.

Our goal is to elevate wealth through humanity. We are people helping people make their dreams come true. We believe that wealth can be measured many different ways. It is not just how much money an individual earns but, true wealth is what an individual becomes and how many people he/she helps along the way.

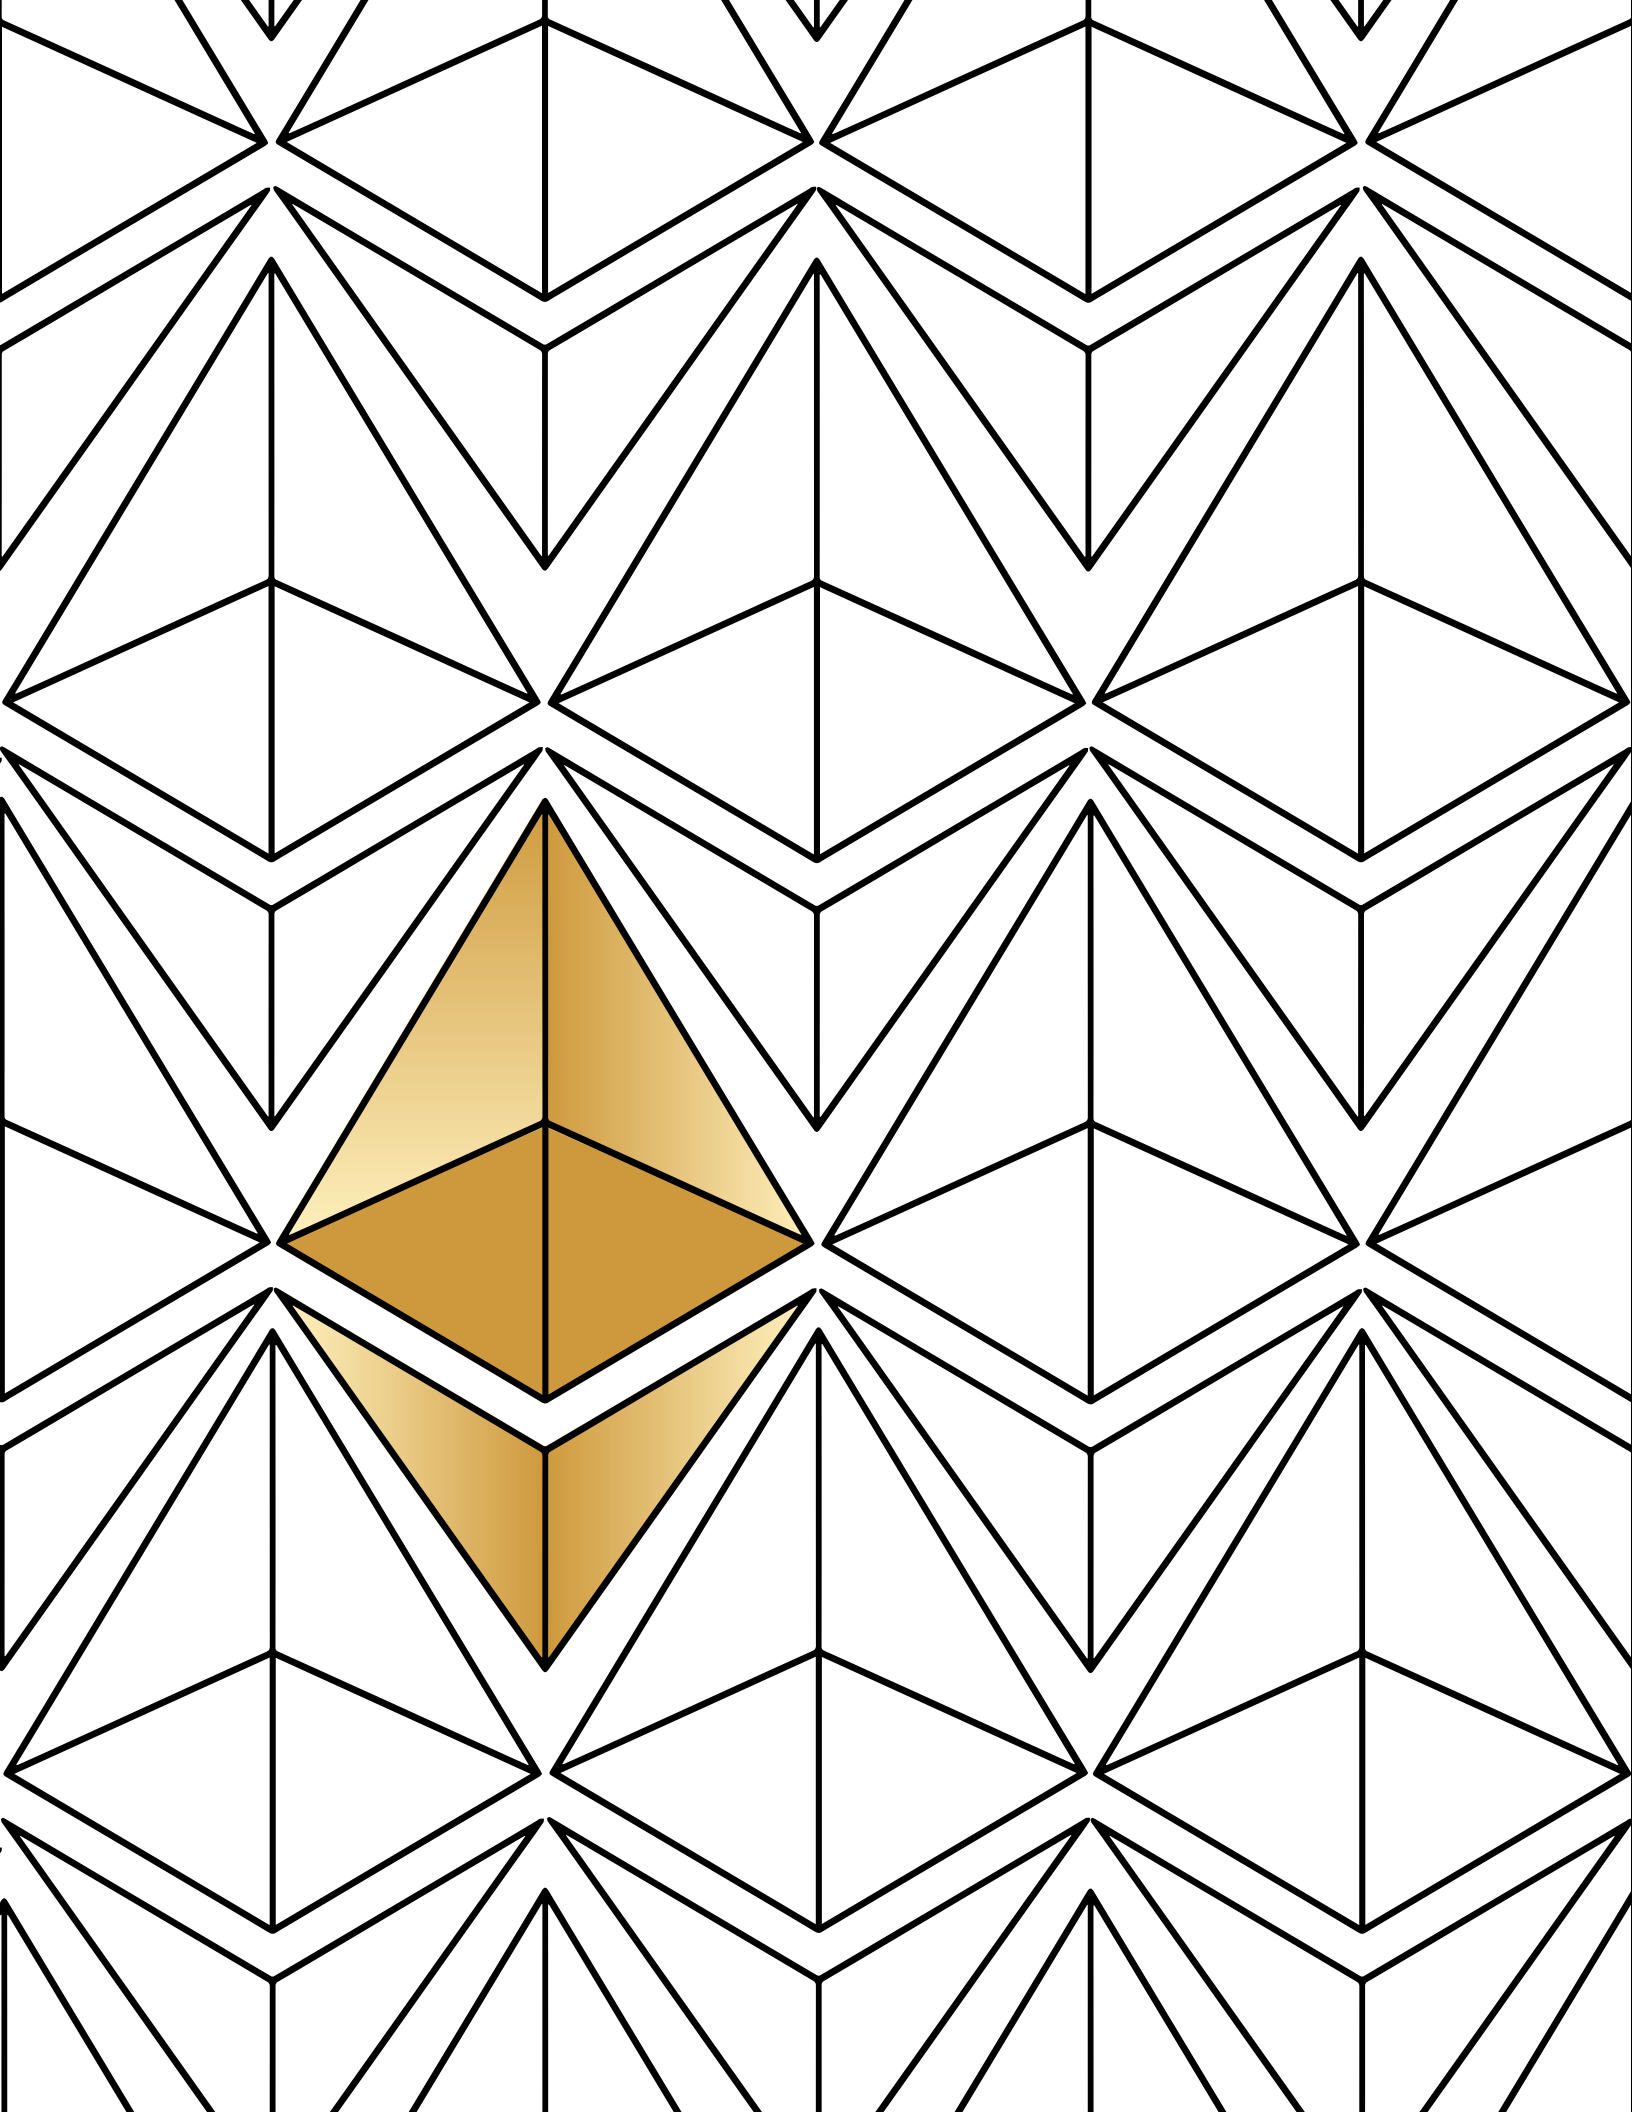

We encourage our members to venture with CHOICE Humanitarian on expeditions, help install water wells and even build schools.

YOUR CAUSE

Our members are passionate. They are determined to pursue their goals and provide support for others who want to do the same. With our high payouts and automatic upgrade system, we've seen members take their income to incredible heights, follow their dreams, and give back to society.

A cause can be anything from paying off medical bills to buying a new piece of furniture, from building a house to raising funds for the hungry! We are people helping people!

Each member will be able to enter a "My Cause" when they sign up at CryptoElevation.com. The home page will include a live feed with all of the Causes listed by our members. The Matrix Tree View will allow up-line to hover over a member in their downline and see what other members are working towards. This supportive community will be highlighted in our marketing Campaigns, "People helping People!"

ETHEREUM

HAS THE

POTENTIAL TO

SHAKE UP THE

FINANCIAL

SYSTEM

ETH is part of the exciting cryptocurrencies boom. It's similar to Bitcoin. Ethereum is the object of exchange, like money but more. It's a way to move value, represent ownership, transmit assets and build companies. Ethereum contains information like the history of transactions that it has encountered. Ethereum is a decentralized system enabling payments through the internet without the need of a third party such as a bank or store.

ETH has wasted no time in establishing itself as the second largest digital currency over the past couple of years. It was the brainchild of Vitalik Buterin who came up with the idea in 2013 when he was just 19. It is said that there are now millions of people setting up cryptocurrency wallets that hold this currency, although arguably its main attraction is the fact third party applications can also run on the network.

CHOICE HUMANITARIAN

Crypto Elevation's Cause is CHOICE Humanitarian! Our partnership with CHOICE Humanitarian allows us to give back and help end Extreme Poverty.

Here is some information taken directly from ChoiceHumanitarian.org:

CHOICE Humanitarian has been working to eliminate extreme poverty since 1983 under the direction of James B. Mayfield, Ph.D., an expert in the field of international rural development.

The purpose of CHOICE Humanitarian is the development of disadvantaged rural village people of this planet through the establishment of programs for

IS OUR CAUSE

better health and education, the eradication of extreme poverty and the strengthening of family and community efforts to help themselves. It is our strong belief that this purpose can only be achieved through the strengthening and adherence to high moral principles and ideals.

While we must continue to help the less advantaged by helping them focus on their economic and social needs, we have come to accept Mahatma Gandhi's strong belief that development devoid of human values and principles of culture that motivate people to a higher standard of ethics and morality will seldom generate the social energy and the individual responsibility needed to implement a sustainable process of village community development.
