line of direction

I,

accept the "point value" (\$90usd) of Ethereum for my Crypto Elevation, enrollment fee and/or a top-up of fees.

I understand that when I have reached a member team of 5 or more, paid members (profit margin) or before this stage, that I will:

(circle one)

- 1- Pay back the "point value" of Ethereum to the sponsoring financier and top-ups.
- 2- Pay the \$90usd of Ethereum forward to another, needy member enrollee.
- 3- Do nothing and accept this as a gift.
